

Permission Slip for Class Related Cell Phone Use

With so much innovative technology available and utilized in the world today, I feel it is important to integrate what I can into my classes to help prepare students for their futures. During the course of the school year I will be implementing some newer methods of instruction and assessment, some of which will entail student use of cell phones for purposes such as recording speaking assessments, text message reminders of important class information (tests, quizzes, projects etc.) and other classroom activities.

In order to apply this new technology; students will need to have access and authorization to use a cell phone. I am sending this permission slip to verify that your son/daughter has permission to use his/her cell phone for the sole classroom purposes explained below. If your son/daughter does not have access to a cell phone during the school day, I will have mine available for use, if permission is granted by you. I look forward to educating your son/daughter this year and implementing some exciting new strategies for instruction!

Sincerely,

Señora Titler
